ARTIST STORY

OFFICIAL BIO

24/8 is the stage name of Australian rapper and songwriter Marlon Bereux, a Victoria-based hip-hop artist whose music combines technical lyricism, dark humour and lived-experience storytelling. After a life-changing acquired brain injury (ABI), Bereux rebuilt his craft and sharpened his artistic identity, turning resilience, mental health, survival and self-definition into recurring themes across the 24/8 catalogue.

ARTIST STORY

The 24/8 project turns difficult real-world experience into music, characters and concept-driven visuals. The 8Ville world and the recurring Symbiote idea give that inner conflict a creative language, while the writing stays grounded in an unmistakably Australian rap voice.
